BRIEF FOR NORMAN M. CAMPBELL  
APPELLANT PRO SE

-----  
Case no. 76-CV-293, U. S. District Court for the Northern District  
of New York State. Dismissed Sept. 20, 1976, with prejudice, on  
motion of Town of Colonie that complaint fails to state claim a-  
gainst Town of Colonie upon which relief can be granted, and be-  
cause the U. S. District Court lacks jurisdiction over the subject  
matter. Honorable James T. Foley, Judge, given at Albany, N. Y.  
andAppealed as a miscarriage of justice, the contract upon which  
the Condemnation and seizure, rather intended seizure predicated  
being unenforceable because injurious to appellant's private enter-  
prise, whether intentionally or otherwise; wasteful of both the  
local taxpayer money involved with application for 75% U. S. tax-  
payer funding; and affidavits supporting the necessity for the par-  
ticular contract being misleading and false, whether intentional  
or otherwise; whereby the performance of this contract will be an  
injustice to appellant and all taxpayers involved and an encourage-  
ment to further invasion of corporate upon the rights of private  
enterprise

-----  
STATEMENT

This Appeal and the Complaint is based on the Fourth Amendment  
to the United States Constitution: The right of the people to be  
secure in their persons, houses, papers, and effects from unreason-

able searches and seizures shall not be violated.

To effect the entry upon and seizure of a United States citizen's property and enterprise as right of eminent domain and public interest when, in fact, it is a scheme to enlarge the tax base by higher property valuation, plus personal profit to local elements of the political structure without proper regard to the rights of the owner and enterprise and monies involved of taxpaying citizenry, is injurious of the political structure itself; safety of persons, papers, and property, the public interest.

And the psychology was deplored on pg 3 of Amended Complaint, and it's consequence pointed out on following p 4, and confluence of corruption and persecution resulting portrayed on the following pages to p 7 where summation of proof of wasteful practice and evident injurious intent. Page 8 named the Federal statute under which claim for relief was stated. There was no denial other than prejudice. A preconceived judgement.

Appellant holds Judge Foley's decision was clearly erroneous in that the Federal court holds jurisdiction, a proper claim for relief was stated, and the prejudice of the subject matter reversed.

In that the sewer service was originally founded on the belief the Federal taxpayer would assume 75% of the consideration involved of the performance of the contracts, and the Complaint against this particular Salt Kill Project, Contract 2, Sky View Drive Laterals, Case no. 76-CV-293 having been filed before the Condemnation under state laws by Supreme Court of the State of New York by a citizen of the United States whose interests are endangered; therefor the Federal Court holds jurisdiction, and superior to State.

In further detriment to the general good; presuming Health, Education, and Welfare, and Housing and Urban Development the subject matter; the origin of urbanization was the Comfort provided to exchange values in safety; barter and trade; from which sprang the Graces and the Muses; the education upon which civilization advanced principally by ownership of home, family, and fireside, and the responsibilities of upkeep, but unfortunately with growth of trade the growth of centers of population with extremes of luxury and poverty with attendant evils of upkeep and policing from which suburban and rural

are normally free by the norm of individual ownership of home, family, and firesided with responsibilities of upkeep where crime and policing and corruption are seldom the serious problems of the urban.

High rise and multifamily units presently the modern face of tenements and tenants that required the urban services, enlarge the tax base, but not so conducive to love thy neighbor as thyself. Appellant notes his former property of three acres of farm land adjacent to the intended sewer line is now in the hands of a developer by an unlawful tax sale seizure which enlarged the tax base as shown on p 7 of Amended Complaint.

As with the Federal, New York State has a Constitution, as also it's local communities, structures of law and order, where Federal judges fear to tread because fools rush in, and the impersonal tower of Justice, or higher realm, becomes confounded of the lower realms of the personal struggles to get there of the body politic; seemingly founded on the capacity of the tax base where the Board of Assessors determine the values relative to requirements of payment of public services where the division lies of service or servant of the state and may alter the status of public official from public servant to the opposite and cost the initiative of private enterprise where the independence and self reliance of a nation springs; the willing heart.

And the problems inherent of urbanization from it's inception are noticeable in the opening exhibit of this Brief where Assessor Wagner finds himself in the coils of the serpent of the judgement tree of Eve's see d, Am I my brother's keeper? Because the compulsory use, rather future use compulsory sanitary sewer tax is expected to be tripled by 75% Federal; failure to pay which compulsory sanitary sewer tax results in foreclosure and a seizure by tax sale; hardly an incentive to free enterprise and economy. Appellant trusts the Court will find the legal structure of Town of Colonie upon which performance of Salt Kill Project, Contract 2, Sky View Drive Laterals predicated is by an invasion under the Condemnation Law of the State of New York upon the Fourth Amendment to the United States Constitution which guarantees the right of security of person, papers, and property from unreasonable seizures, and will grant plaintiff-appellant's petition to declare the contract null and void and return of costs of the action

Mr. Edward L. Wagner  
Town of Colonie Assessor  
Town Hall  
Newtonville, N. Y.

Dear Sir:

This is in regard to the property listed on Town of Colonie tax rolls a/s 573 Columbia St., Norman M. Campbell; being originally a part of Matthew Johnson farm, the which divided to his sons, Tracy and Edward; this part the northern end of Tracy's cornfield, purchased after Columbia Street, Cohoes, was extended through the Fonda and Johnson farms; being something more than five hundred feet of frontage on the northern side of the road and eight feet deep at eastern end, angling to about one seventy five deep measuring on the inward angle of western end; the Niagara-Mohawk Power Corporation having taken two seventy five foot widths of right of way by questionable condemnation proceeding in 1958 through the western end at an angle which claimed the depth of the property; two power lines were erected; respectively to Rotterdam, claimed to be 60,000 volts and Latham, 34,500; the furthest western is in view of the inclosed photograph; which you may see passing the high tension wires from the pole in right foreground, over the spruce trees at rear of property line; the western end of which at beginning of deciduous trees which mark the western boundary of the property. I feel positive these wires pass about thirty to forty feet from said western boundary, leaving the entire western part unbuildable, since building regulations render unsafe of a fifty thousand dollar single family residential zoning with 34,500 volts passing overhead close by, and 60,000 more alongside.

However, I am being charged a fourteen dollar levy for future sewer use as a buildable property; having been told at Town Hall last Spring that the western end of property divided by the condemnation comprised a 100 ft. frontage and 50 ft. at rear; the Niagara Mohawk Power Corp. Right of Way Representative having been requested to mark the boundaries of the rights of way has failed to do so; whether the Town engineer or Niagara-Mohawk engineer is at fault or mistake is a problem which must be resolved of themselves, if the lady who informed me at Town Hall property records office is correct; but in any case, it is a simple matter to stop at the property and convince yourself what I am telling you is correct, and the fourteen dollar assessment as buildable property is mistakenly levied in a fifty thousand up, single family zoning district. Please advise.

Sincerely yours,

*John M. Campbell*

St. Petersburg, Fla. 33701

Dear Mr. Campbell:

In answer to your letter dated December 9, 1975 regarding your property 573 Columbia St., Town of Colonie, may I state that I have inspected the situation and have ruled to remove the A unit sewer charge for the 1977 roll and the property will be charged D unit sewer charge at 10¢ per unit.

As no complaint was made before or at the sewer hearing held by the Town of Colonie in October 1975 regarding the charge, I can not, under the law, remove the charge on your present bill.

Very truly yours,

PLAINTIFF NOTES the Communist polity is based on state owner-  
ship and service of the citizen to the state and that of these Un-  
ited States upon private and individual of free enterprise in  
which the state, by reason of it's original institution for the  
general good, should be at the service of the citizen. Plaintiff  
further notes , courts were instituted for protection of the weak-  
er against the stronger. Plaintiff further notes Eminent Domain  
has become the magic password giving the razzle dazzle to the ris-  
ing generation of public service.

In the matter of Salt Kill North-Contract 2-Sky View Drive-  
erals Sewer Project, Town of Colonie, County of Albany, State of  
New York. To the best of plaintiff's knowledge and belief, this  
project is under the hand of Secretary Matthews by reason of par-  
tial government funding, whereby the U. S. taxpayer and courts are  
concerned, especially plaintiff, over whose land and through whose  
melons and strawberries and other garden produce beds, said Town of  
Colonie, Sanford, Supervisor will ruin for the purpose; promising  
to replace as formerly; how is a mystery; the razzle dazzle being  
necessary to the public interest; whereas the fact, privat enter-  
prise of septic tank and sanitary systems has served the prudent  
householder of the district for years without risk of a strike or  
cessation of sanitary <sup>system</sup> ~~worker~~ to endanger and hazard the families'  
and childrens' health. C. T. Male and Associates, the engineering  
firm in possession of the contract deposes that plaintiff refusing  
offer of a dollar a foot (\$378,00), the frontage of the land where  
the value for growing crops lies, has caused his firm, by reason  
of plans drawn, to be forced to jump from from one parcel to ano-  
ther with machinery and equipment; whereby immediate possession by  
eminent domain is sought; plaintiff notes if private enterprise  
competed on that basis where plans are made without forethought of  
cost on the assumption eminent domain and the taxpayer will foot it  
the country will soon go Communist. The other side of Columbia St.  
has only half as many houses.

Think of just

Compensation

! //

... of Just Compensation and the soon legal gentlemen will view at taxpayer cost; and plaintiff entreats the Court that it will consider plaintiff Campbell's melons in contest against what must hardly be other than the public melon.

Plaintiff petitions the Court it should recommend to Secretary Matthews a closer inspection of the rising razzle dazzle of eminent domain and the public melon as an encroaching possibility of the philosophy of service of the citizen to the state. It alters the status of public official from public servant to the opposite. One presumes the Court can do little more, since it is the duty of the defendants to preserve the public purse and the initiative of private enterprise where independence and self reliance of the nation springs. Plaintiff complains Sky View Drive materials in it's present presentation is plaintiff's best knowledge and belief it's a waste of U. S. taxpayer money, trusting further investigation by the Secretary will reveal it so. Plaintiff is also inclined to belief an animosity exists toward himself, due to a former action in this court in which certain defendants in the district, one of which Town of Colonie, were taken to task; a comparison drawn of the ancient Egyptian economy of Tut Ankh Amen and that of William K. Sanford. Plaintiff petitions the Court also, defendants shall pay the cost of this action. Let's have a new heaven and earth begin in Newtonville, N. Y., the home of Colonie Memorial Town Hall.

In 1940 plaintiff purchased from Tracy Johnson the land now known as 573 Columbia St., the title being warranted forever, as per Exhibit A attached.

About 1950, perhaps later, said Johnson sold land across the road to a party named Mack, it bordering a creekbed or including same at east end, and a trailer park established thereon.

In 1958, Wm. A. Hubbs, Right of Way Representative of Niagara Mohawk Power Corporation Contacted Charles Johnson, son of Anna Johnson, widow of Charles, Senior, brother of Tracy, to whom the other half of Matthew Johnson farm divided; said Hubbs requesting to buy land for right of way for power line; said land to the north of that Tracy sold to plaintiff. Mr. Johnson refused, telling him to take it up the creek bed, which was unfit for cultivation and unused at the time. Said Hubbs then requesting to buy the most valuable part of plaintiff's property for right of way, was refused out of hand, being told plaintiff had no intention to sell.

About July 1 or later, Town of Colonie, William K. Sanford, Supervisor, sent two Town of Colonie policemen, who entered upon plaintiff's property without warrant, provocation, or reasonable cause, merely on orders, who beat up plaintiff and forced into police car and ran to Albany County Jail with further threats and abuse; plaintiff being ignorant of Constitutional right was not apprised of such, but was sent to State Mental Hospital in Utica under the New York State Laws of Mental hygiene. These policemen were sent at behest of trailer park proprietor across the road upon telephoned information that was imagined and false, plaintiff being in pursuit of his peaceful and lawful business, and shortly thereafter, Wm. A. Hubbs

This sale was consummated unlawfully by both parties in knowledge it was to gain possession by Condemnation Law of the State of New York by Niagara Mohawk Corp in defiance of the warranted title; being unlawful by intent to do injury to a third party; a contract must have time, place, meeting of minds, consideration, and a legal object; lacking which, amounted to a conspiracy to defraud; Exhibit B, 1,2,3, attached, notarized by Wm. Chittagong

Chittagong is a port city in the south of Bangladesh. It is the second largest city in the country after Dhaka. It is located on the banks of the Karnaphuli River, which flows into the Bay of Bengal. The city is known for its rich history, including the site of the ancient port of Pataliputra. It is also a major industrial center, with a significant textile industry. The city is connected to the rest of the country by road and rail networks.

idently determined to gain the Presidential Chair and outdo the services to the nation of such families as the Roosevelt and Kennedy and ring down the roll of history as bulwark of free enterprise, and Albany and environs is most certainly a good place to start, considering Democrat Franklin Roosevelt got his there; Albany city and Cohoes and Watervliet are Democrat, and except Green Island, Town of Colonie is the rest of Albany County, and Republican, and taxes were doubling, tripling, and quadrupling, due to rising costs of welfare, mental hygiene and education; President Roosevelt had established the payroll tax and social security to reform the inequalities of a monetary system which cultivates greed and love of money as the dominant instinct of survival of the fittest, and with the rise of the Communist philosophy after WWI and debacle of Great Depression among free enterprise economies which culminated in WWII and it's lesson of the folly of war to correct human ills and it seems to have instilled the premise it's merely a matter of revenue to city hall and lawmakers to enact laws designed to correct or alleviate human ills as being evils outside the human rather than inside where instinct and emotion and desire springs and dominates survival by the fittest; and the curiousity develops of a civilization where leadership depends on the cultivation of the greedy instinct to promote the alleviation of human ills by the system of extraction from the private purse to swell the public for the purpose; and the thereby education as being the public interest to gain the power of corporate enterprise that may levy the extraction rather than the opposite of the individual that will look within itself to correct by means of own enterprise and effort and power of thought and set example of free will and willing heart and foster the independent spirit of liberty, fraternity, equality rather than cultivate it's dominant wellspring of gain; Possession, the greed.

C. T. Male and Associates were engaged in contracts of Cohoes Urban Renewal and Mr. VanBuskirk very probably instrumental in the award.

Mr. VanBuskirk is nephew of now deceased Walter Wertime, former Albany County Republican Party Chairman and President and Legal Counsel of Cohoes Savings Bank, and his Chairman of the Board is President and Treasurer of Geo. F. Wertime Co. and another nephew was Cohoes Corporation Counsel, and the Wertime interests profited greatly on sales of properties to Cohoes Urban Renewal which were tainted so badly with corrupt politics that one of them made public print by lease to a private corporation and sale to Urban Renewal at the same time for the same property. Plaintiff brought Town of Colonie, William K. Sanford and Mayor Virginia B. McDonald of Cohoes into Federal Court along with Secretary Matthews and sundry other defendants concerned, and had prepared to carry his cause to U. S. Supreme Court in another matter relative until discovery that it would have been folly, upon receipt of the transcript by Official Court Reporter Hiram J. Sheffer Jr. who gave affidavit it was a true and accurate account at a charge of \$31.50 that I was behind bars in dirty old clothes, and a couple of physicians came in, and they got a bunch of reporters in there, and you know what reporters are, and some of them have honest views, and they sent me down to Poughkeepsie for six months, and I have got a record of being mentally incompetent; and plaintiff certainly would have been to carry on to Supreme Court; and although U. # VanBuskirk '71 Role Drew Hatch Act Violation Scrutiny

By DONNA HALVORSEN  
COHOES — Paul Van Buskirk, who has accused several Citizens Party members with violating the Hatch Act, was himself investigated last year for a possible violation of the act.

However, according to an attorney for the federal Civil Service Commission which looked into a complaint against Van Buskirk, the evidence presented did not warrant bringing charges against him and "we closed the matter."

Peter Skoro, who said he will be in Cohoes in about two weeks to begin an investigation into alleged violations, also said he doesn't anticipate that the previous investigation will be reopened, contrary to published reports Thursday.

That investigation was made after Van Buskirk managed "or Virginia B. McDonald" campaign in 1971 at a time when he was serving as director of the Planning and Development Agency.

Questioned about the scope

of the upcoming inquiry in Cohoes, Skoro said it was spurred by the complaint from Van Buskirk's attorney and will be limited to the charges made in it.

The Hatch Act places restrictions on the political activities of persons whose salaries are paid with federal funds.

James Cuva, Citizens Party chairman and assistant urban renewal director who is one of the persons named in attorney Francis J. Carroll's complaint, said Thursday he is "looking forward to the investigation."

"I still am firm in my belief that I am not in violation," he said, "and I welcome the investigation of someone in authority to let me know whether there is a violation of the act."

Cuva said he considers the act to be unconstitutional and he may decide to challenge it in the courts, even though the cost of such a challenge might be beyond his means.

"I don't see why the little people should have to sit idly by and just take it," he said.

Several Citizens Party members have said they have relied in the past on the judgment of Van Buskirk as a party leader that the act only applies to major party candidates.

A 1967 party flyer, which says, "Ordered by Paul G. Van Buskirk, Chairman, Cohoes Citizens Committee" at the bottom, contains a section, headed, "Notice to Smealers....The Hatch Act Pertains to National & State Parties."

It continues: "Section 12 of the Hatch Political Activities Act of 1959, as amended, applies to those officers and employees of a state or local agency whose principal employment is in connection with federally financed activities. Such persons are prohibited from taking an active part in political management or in political campaigns that are identified with a national or state political party, such as the Democratic or Republican."

Van Buskirk was in Binghamton Thursday speaking to a group of businessmen and

could not be reached for comment on his apparent change of position on the act, but he suggested to a reporter in a previous interview that interpretation of the statute has changed.

Skoro said that if the initial investigation in Cohoes determines that any of the charges are warranted, the first step will be the drafting of a letter of charges to be presented to the individual involved for a response.

The Commission would then review the response and determine whether to proceed with the investigation, he said.

Though a violation could result in removal from a federally funded job, Skoro said, there have been cases which have been closed after an employee decides to cease his political activity. He said he was not suggesting that that could happen in Cohoes.

If an individual does not agree with the commission's determination, Skoro said, he could challenge it on his own initiative in the federal district court.

1                   about. The protection of life, liberty, and property.

Exhibit E and passes to Mr. C. T. Male's exhibit of good engineering practice to which he has given sworn affidavit as such, and a sewer line that diverges from a straight line along the highway at an angle of ~~forty five~~ degrees to a plus or minus distance that will encompass and pass through and destroy the dug well and specially prepared garden beds on it's diagonal return to the straight line is an expensive departure from good engineering practice, and especially so, since it could put plaintiff out of the pursuit of his private enterprise for another year after being twice deprived. In 1964, saboteurs were again harboured in the trailer park by William P. Dawson, a corrupt politician of Cohoes, whose father was Public Works Commissioner for his uncle, Michael T. Smith, the Cohoes end of the O'Connel Albany County political machine which thrived on the illegal booze and gambling rackets, Dinny Dawson, his brother, was Mike's Corporation Counsel, and gave William P. Junior desk space in the office to operate his illegal numbers game. Mike wanted him to take a nice seven thousand a year job in Albany on the public payroll, but Junior said Nothing Doing. I'm after the big money; and evidently still, having been twice convicted and sentenced in Federal Court, and now owner of the former Delaware & Hudson RR passenger station in which the County OTB gambling establishment in Cohoes. He returned from Strategic Services of CIA in WWII, and established Dawson Detective and Investigative Service with operatives in the branches

of city and county government, and followed Warren Smith as Public Works Commissioner, another nephew of Mike's who broke in as bartender and manager of Mike's speakeasy in Troy all through Prohibition, and on Repeal it was moved to Remsen St. Cohoes, and Warren succeeded William P. Dawson, Sr. to P WCommissioner and Mike to Chairman of Cohoes Democratic Party, and he made his boast in my brother's son in law's grill that it took Mike twenty five years to get his, but he was going to get it in five, and he made his son Warren Junior, Treasurer of the Board of Education, and Walter Burke, the son of a Dentist Mike put in the cush as deputy on County Coroner payroll as Commissioner of Education; and plaintiff took pains to tell them publicly that they were ignorant; and it must be obvious from the above, their example of the Cohoes Education, that it is. Columbia is the S tree t, the way of the T pian tree of the P tian tree of Eve's see d, the W o m an; where W is the double V. Ye shall not surely die, but be as gods, knowing good and evil. Warren drove me off Columbia Street twice, but I'm back but seventy one years of age, and anoterh year, afflicted as I am with arthritis , could close the ability to once more become established, and the saboteurs are again in the trailer park, but considerably less damaging than formerly, having brought the proprietor to this court last year, and she's wary of her customers,,but would

be glad to see me off Columbia Street, as I feel sure William K. Sanford, Supervisor and his legal gentlemen. In 1964 Warren again succeeded in stowing me in Poughkeepsie, but it proved to be instrumental of gaining somewhat of legal education, although another three acres of farmland purchased from Tracy Johnson in 1943 was placed in rem due to the fact Town of Colonie, William K. Sanford, Sanford, Supervisor, and Attorney General Lefkowitz failed to notify the Committee appointed by Supreme Court of the State of New York, who was paying the taxes regularly, there being plenty of money in the bank as estate money; and although Thresa B. Cook knew it was unlawful, as Albany County Treasurer she sold the property of the ward of the court taken in rem and confiscated while money availed for the court to pay. Thresa, rather Theresa made a private sale to a party named Apollos, listed at the address 6 Pine St., directly in back of Albany City Hall, as a developer; it's right across the courtyard in back of Court of Appeals, just out the basement door of County Courthouse and across the courtyard and across Pine St. and you're at No. 6, and the price \$2600 for a deed that's mostly imaginary, but it went on Colonie Tax Roll and Mr. Sanford appreciates more revenue to Town Hall.

The purpose of the recitation of the foregoing is to show to the Court the general issue involved of a scheme to deter plaintiff from lawful pursuit of the re establishment of his private enterprise on the Columbia Street Extension by the use of false representations contained of the affidavit of C. T. Male Jr.; good engineering practice, public health hazard, necessary of immediate possession; necessary as outfall of Sky View Drive systems that have failed, whereas they were inspected and passed by Albany County Health Department and Town of Building rather Colonie Building Inspector and are in good service, but the householder's women thinking they're getting sewer service for free not realizing the burden of taxation and vulnerability to organized unions of persons rather than the free enterprise of private enterprise. This sewer line as mapped of herewith final Exhibit G will carry the bulldozers and backhoes over the dug well that supplies water and the specially prepared beds for close cultivation and dig and dump the hardpan to remain cultivation for a long period; the deviation shown is not sensible except for the purpose; in regard to Just compensation: There are twenty nine dwellings on the north side, the south side only nineteen excepting the trailer park which requires only replacement of drive. On the north side where the hill rises to from Columbia Street to the homes on Sky View Drive the land is considerably higher than the south side, and more <sup>depth</sup> ~~depth~~ with consequent of work and expense, due to necessity of liquid matter to run downhill from facilities draining under the road to

COUNTY OF ALBANY

TOWN OF COLONIE,

AFFIDAVIT

Respondent

STATE OF NEW YORK:  
: SS.:  
COUNTY OF ALBANY :

CHARLES T. MALE, JR., being duly sworn, deposes and says that he is a duly licensed and practicing engineer under the laws of the State of New York having an office for the practice of his profession at 3000 Troy Road, Schenectady, New York, and is associated with C. T. Male Associates, P.C., engineers for the SALT KILL NORTH - CONTRACT 2 - SKYVIEW DRIVE LATERALS Sewer Project Town of Colonie, County of Albany, State of New York.

That deponent has participated with other members of said firm in the preparation of plans for the sewer system for the said project and deponent is familiar with the design of said system, and that the same has been planned in accordance with good engineering practices.

The construction schedule for the sewer system for said project is such that it is necessary for the members of deponent's firm and the contractor's firm to be permitted at the earliest possible date to go upon the lands of the Defendant for the purpose of performing all functions necessary to complete the sewer system of said project. Unless immediate temporary possession is obtained of the property in question, the contractor's firm will be unnecessarily delayed in the progress of the construction of the sewer line which constitutes an essential component to the service of this sewer improvement area. Such delays are entailed by the contractor being forced to jump from one parcel of land to another with his machinery and equipment rather than being able to work in one continuous line.

Exhibit "B"

(PRINT NAME BELOW SIGNATURE)

It should also be noted with great importance that this line will provide the only outfall for the conveyance of sewage from the sewer system of said project area to the North Treatment Plant - Albany County Sewer District via the Salt Kill Trunk Sewer, the Dry River Trunk, and Hudson River Interceptor, said treatment plant being an existing facility located in Menands, New York. It is of the utmost necessity that this sewer line be installed and work completed to allow for sewer connections in the District in order to provide relief for the residents of the District from the effect of the sewage discharge of individual systems. These systems have continued to fail, such failings resulting in a health hazard.

Deponent is informed and verily believes that delay in the acquisition of these rights-of-way and easements will prejudice the construction schedule of the entire sewer line project known as SALT KILL NORTH - CONTRACT 2 - SKYVIEW DRIVE LATERALS Sewer Project, Town of Colonie, County of Albany, and State of New York.

a sewer line on the north side. Plaintiff notes FCA. Title 18, Chapter 47, Fraud and False Statements, Section 1001. Statements and Entries generally.--Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and wilfully falsifies, conceals or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes or uses any false writing, or document knowing the same to contain any false, fictitious, or fraudulent statement or entry, shall be fined not more than \$10,000 or imprisoned not more than five years, or both. (June 25, 1948, c.645 Sec. 1, 62 Stat. 749.)

While this Complaint and Amendment is made under Civil Law, and plaintiff realizes the failings which very probably prompted defendants; nevertheless the Court must realize it is a serious offense to waste, particularly his own money, on sewers that are not sanitary in the final analysis. Supervisor Sanford was told by letter, if he was determined of a sewer line, why not take it down the other side of the road through Niagara Mohawk and trailer park property. Plaintiff petitions the Court it declare Contract 2, Sky View Drive Laterals, Salt Kill Sewer Project null and void for the reason that it is not truly necessary.
